  - ICLEI EAS, Seoul, South Korea
## Communities of Practice

<table>
<thead>
<tr>
<th>Grid-scale Renewable Energy (GRE) CoP</th>
<th>Clean Mobility CoP</th>
<th>Multi-level Climate Governance (MLCG) CoP</th>
<th>NDC Finance CoP</th>
</tr>
</thead>
<tbody>
<tr>
<td>Peer learning, knowledge exchange and expert assistance on energy storage and long-term strategies (LTS) for power sector transformation (PST)</td>
<td>Moving towards clean mobility by strengthening the operational and energy efficiency of public transport policies and systems</td>
<td>Issues and opportunities in effectively integrating multi-level governance for achieving NDC targets</td>
<td>Focuses on blended capital and green bonds to support achieving NDC targets</td>
</tr>
</tbody>
</table>

**CoP activities:**
- Online learning sessions with subject-matter experts
- Compilation of good practices, lessons learned, success stories
- Sharing of tools, resource materials and new concepts
- No cost technical assistance
- In-person workshops with peer learning and networking opportunities
- More than 300 participants representing around 20 Asian countries are members of ALP CoPS
A new CoP was launched on ‘Building Energy Efficiency’

- The CoP is supported by **Building Energy Accelerator** which is a Public-private collaboration to turn global expertise into action to accelerate LG implementation of building energy policies and programs.
- The CoP focuses on building energy efficiency measures and converging activities to accelerate building efficiency at the sub-national and national levels.
- 100+ participants from Bangladesh, Bhutan, China, India, Indonesia, Malaysia, Nepal, Pakistan, Palestine, Philippines, Singapore, Sri Lanka, Chinese Taipei, Thailand, Vietnam.
- Three online sessions* and an in-person workshop are planned until April 2020.
Thank you!
