

## **Asia LEDSPartnership Clean Mobility Community of Practice**

### **Session 1:**

### **Enabling a transition to electric mobility in public transport fleets: Policies and Enabling Environment**

Date: June 22, 2018

Time: 08:00 – 10:00 am India Standard Time (IST)

**Please register in the below link to join the webinar at the specified time and date:**

<https://attendee.gotowebinar.com/register/6636696556935289859>

After registering, you will receive a confirmation email containing information about joining the webinar.

The online session will focus on buses as a mode of public transport. It will help the participants to understand the benefits for deploying electric buses, along with ideas to formulate productive policies with a special mention of incentives, charging equipment, operational hurdles and cost of buses.

### **Session Agenda (tentative):**

- Update participants on the Clean Mobility CoP, on-going and proposed activities for the year (4 minutes)
- Introduction to the expert followed by a round of introduction by the CoP participants (6 minutes)
- Presentation by Mr. Cabell Hodge, Federal Fleet Project Leader, National Renewable Energy Laboratory (30 minutes)
- Country Presentations by representatives from Bhutan, Sri Lanka, Philippines and Vietnam (60 minutes)
- Question and Answer Round (15 minutes)
- Concluding remarks and the way forward (5 minutes)
